CJPA Conference – CalAIM Consultation

April 2024

CalAIM technical assistance and processes:

1. Discuss obtaining NPI number

2. Developing processes and policies/ procedures to meet or exceed CalAIM requirements

3. Readiness Assessments (R.A.)

Technical Assistance

- Wellpath is able to provide as much, or as little technical assistance as needed. Some of the services include:
  - Assistance developing Implementation Plans and conducting a gap analysis
  - Guidance for obtaining NPI number
  - Development of processes and procedures to implement CalAIM requirements
  - Writing CalAIM policy – proof of practice for R.A.
  - Multi-agency coordination for process refinement
  - Workflow design for ECM, MAT, Pharmacy services, DME
  - Training – custody and healthcare

Obtaining NPI Number

- Go to website –   nppes.cms.hhs.gov

- Will need the following:
  - EIN number

  - Authorization in the system from the site administrator to be an authorized user for the county

  - Taxonomy to include – 261QP2400X

  - There is a paper version available that we can provide

Policies and Procedures & Training

- All CalAIM requirements to be reflected in local policy

- Procedure manuals recommended if separate from policies

- Staff training on policies/ procedures is required for proof of practice

- Training materials and sign in sheets required for proof of practice

by Unknown Author is licensed under

Readiness Assessment

- Required template for submission

- Detailed summary of new process for each CalAIM standard that was outlined as a "future plan" in the implementation plan

- Proof of practice required for each CalAIM standard including training materials

- Each jail location requires approval from DHCS to implement Medi-Cal billing

- CalAIM start- up happens quarterly in a cohort only.
