Welcome to the 2025 Fall Training Conference!

October 15–17, 2025

Dear CJPA Members,

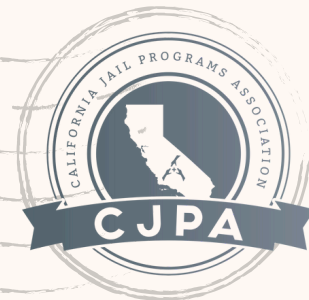

On behalf of the California Jail Programs Association (CJPA) Board, welcome to our Fall Training Conference. We are honored to host this gathering of professionals who share a deep commitment to improving inmate programs and custodial services across California.

CJPA remains the only organization in the state solely dedicated to addressing the complex and evolving challenges of jail-based programming. Our diverse membership includes both sworn and non-sworn professionals—from correctional officers and program managers to educators, vocational trainers, and clinicians—who serve in facilities large and small. You bring unmatched insight into the unique demands of jail environments and the essential role programming plays in promoting rehabilitation and safety.

This conference is more than an educational opportunity—it's a forum to share knowledge, exchange ideas, and strengthen the network that supports our collective work. Our goal is to rapidly share best practices, explore evidence-based modalities, and highlight innovative solutions that are practical, scalable, and results-driven. Together, we continue to build programming that is cost-effective and impactful, helping reduce recidivism and create safer, more stable facilities for both inmates and staff.

We are grateful for your dedication and proud to stand with you in advancing the field of jail programming. Thank you for investing your time and expertise in this important work. May it be full of learning, inspiration, and meaningful connections.

With appreciation,
Your CJPA Board
